

Health Education

(Exemption Procedure)

Exemption will be granted from a specific portion of the health education curriculum on the grounds that the material taught is contrary to the religious or personal beliefs and teachings of the student or of the student's parent/guardian. If the request for the exemption is from a specific portion of the health education curriculum that concerns human sexuality, no reason must be given by the parent/guardian when requesting the exemption.

The request for exemption must be in writing and must be submitted to the school administrator at least 5 school days in advance of instruction. Alternative activities may be developed for students by the classroom teacher as deemed appropriate by the superintendent.
