

2024-2025 School Fees & Activity Costs

At Silverton School we do our best to keep fees and activity costs low for families. We never want school expenses to be a stressor. We do this in large part through state and federal grant programs that we apply for each year. We qualify for this funding by parents confidentiality sharing their income with us. **Please complete the income form attached: it's vital to our funding! It will remain completely confidential and the information is only used to help us qualify for additional funding for student activities.** Here is a preview of the projected expenses for the year:
